WHO'S BEHIND ALL THIS ANYWAY?

Fellowship Church is the testing site for everything you see on CreativePastors.

We started in 1990 in a small office complex and have grown to be a large church with multiple campuses. Our main campus is just north of the DFW Airport and our satellites are in North Dallas, Plano and the Ft. Worth area. No matter what stage your church is in, we've been there... from the challenge of rented facilities, to raising funds for buildings, to launching satellite campuses. As we learn from these experiences, we want to pass it on!

Our *In the Zone* series offers a fresh perspective on giving

Pastors across the country have taken ideas from CreativePastors, added their own unique spin, and experienced phenomenal results. Here's just one example from a church that used our *In the Zone* series to teach about giving:

"It is unbelievable what God is doing to honor His Word. The first week of the series our giving was up 32%. By the last week of the series our giving increased 75% over our average for the year. And it did not stop there. The last two weeks our giving has increased 100%!"

—Roger House, Senior Pastor
Allen Street Baptist Church in Clinton, Missouri.

See what can happen when we collaborate?

When you use our ideas as a springboard, you multiply your creative reservoir. Whether you're looking to download a sermon for your MP3 player or implement an entire series, we've got more than a thousand messages to fuel the fire.
